## Welcome!

To protect the beauty of our rivers so future generations can have just as much fun on them as you do, we've created rules meant to protect you AND this area's rivers.

## Did you know?

- The Comal River is the shortest river in the Texas.
- Historically the Comal River was used to power watermills and cotton gins by early German settlers, and later to provide hydroelectric power.
- The Comal River is also one of only two rivers to host the fountain darter, a fish now in danger of extinction.
- The Comal River is one of the largest springs in Texas with 8 million gallons of water flowing through every hour.
- The water is pure, clear and cold, about 72 degrees fahrenheit.

## Things to bring

- Sunscreen - This is Texas.
- Footwear - Our rivers are natural. The bottoms are rocky and uneven.
- Water - Floating trips can range from 1-4 hours. You'll get thirsty eventually.
- Smile - If you forget to bring it, we figure you can pick one up when you get in the water.
