SECTION 3 – STANDARD TERMS AND CONDITIONS

3.1 INSTRUCTIONS TO PROPOSERS

(a) Thoroughly examine the drawings, specifications, schedule, instructions, and all other solicitation documents.

(b) Make all investigations necessary to be familiar with conditions that affect the Proposal, such as but not limited to, knowledge of locations and needed materials and equipment to handle the requirements of the bid. No plea of ignorance by the Proposer because of failure to investigate or examine conditions or failure to fulfill details of the contractual documents will be accepted as a basis for varying the requirements of City or changing the compensations due.

(c) City contracts are subject to all legal requirements of City, state or federal statutes and regulations. Laws of the State of Texas apply.

(d) Provide all required information on the forms furnished in the solicitation. Print or Type name on Proposal and ORIGINAL AND COPIES MUST HAVE SIGNATURE IN THE SPACE AND ON THE FORMS PROVIDED. Telegraphic, Fax, E-mail and Online responses WILL NOT BE ACCEPTED unless specifically authorized in the terms and conditions of the solicitation. If you obtained this solicitation by Internet posting, your response will not contain any alteration to the document posted other than entering data in the spaces provided or including attachments as necessary. By submission of a response, Respondent affirms that no alteration of any kind has been made to this solicitation.

(e) If applicable, provide unit prices and extension prices. The unit price shall govern where there is disagreement in the unit and extension prices.

(f) Alternate Proposals cannot be considered unless specifically invited and authorized by the solicitation.

(g) If applicable, provide your proposed delivery time. Include weekends and holidays in counting days or months.

(h) Do not include federal taxes or State of Texas limited sales excise and use taxes in Proposal prices since CITY is exempt from payment of these taxes. (Sec 151.309 Tax Code)

(i) If applicable, include cost of freight to destination(s) shown in the unit price in your bid. Only F.O.B. destination bids will be considered.

(j) All Proposals must be current and final at the time of opening to be considered responsive. No Proposal will be accepted for consideration, and no award will be made, if at the time of opening anything contained therein is contingent upon, or subject to, any outstanding matter, including, but not limited to, any review, certification, or approval by any party that has not been received.

(k) Substitute and “Or-Equal” Items: The Contract, if awarded, will be based on materials and equipment specified or described in the Proposal Documents, or substitute or “or-equal” materials and equipment approved by Owner. The materials and equipment described in the Proposal Documents establish a standard of required type, function and quality to be met by any proposed substitute or “or-equal” item. No item of material or equipment will be considered by Owner as a substitute or “or-equal” unless written request for approval has been submitted by Proposer with Proposer’s bid response. The burden of proof of the merit of the proposed item is upon Proposer. Owner’s decision of approval or disapproval of a proposed item will be final. If Owner approves any proposed item, such approval may be set forth in an Addendum issued to all prospective Proposers. Proposers shall not rely upon approvals made in any other manner.

3.2 PROPOSER’S CERTIFICATIONS/AGREEMENTS

By submission of a Proposal:

(a) You certify that you are a duly qualified, capable, and otherwise bondable business entity. You further certify that the Company, Corporation or Partnership does not owe any back taxes within City. No award will be made to a firm owing back taxes within the City. Additionally, if taxes become delinquent after an award has been made to you, that fact may constitute cause for cancellation of this contract.

(b) You warrant that all applicable patents and Copyrights which may exist on items in Proposal have been adhered to and further, you warrant that City will not be liable for any infringement of those rights. Such rights granted City will apply for the duration of the contract or for the life of the equipment or supplies purchased. City agrees not to sell, convey, barter, or otherwise extend the use or exclusive right granted herein to anyone other than City employees for official use as described in this contract. City will not knowingly or intentionally violate any patent, license or copyrights applicable to items sold hereunder.

(c) You warrant that upon execution of a contract with City you will not engage in employment practices which have the effect of discriminating against employees or prospective employees because of age, race, color, sex, disability, creed, or national origin and will submit reports as City may require assuring compliance. Furthermore, City, its Contractors, their Subcontractors and suppliers, as well as all vendors of goods, equipment, and services, will not discriminate based on race, color, religion, national origin, handicap, or sex in the award and/or performance of contracts. All vendors, suppliers, professionals, and Contractors doing business, or anticipating doing business, with City will support, encourage, and implement affirmative steps toward the goal of establishing equal opportunity for all the citizens of City.
(d) If applicable, you certify that any substitute brand bid upon matches the performance and essential characteristics of the item in the purchase description and agree to replace it in the event it does not conform. All information, brochures, specifications, etc., necessary to determine the alternate item conforms to that stated in the purchase description must be submitted with each offer.

(e) You warrant that the offered price will be held firm and subject to acceptance by the City Council for a period of sixty (60) calendar days from solicitation closing date, or such longer period indicated in your offer.

(f) City is a government agency engaged in public projects where damages caused by breach of contract are difficult or impossible to measure. Awardee agrees that the amount of the bond is the amount of damage, except that if in the opinion of the City Council, the failure to perform terms of the contract is the result of acts or events over which you have no control the BOND in whole or in part may be returned to you at the City Council’s sole discretion.

(g) You warrant that you employ or retain no one or no agency to solicit or secure this contract where you have agreed to pay a commission, percentage, brokerage, or CONTINGENCY FEE, except for your bona fide employees or your bona fide established commercial or selling agencies that you maintain as a regular course of business. Violation is cause for City to annul the contract without liability, or at its discretion to deduct consideration from the contract price for the full amount of the commission, percentage, brokerage, or contingent fee.

(h) You affirm that any response has not included any preparation in collusion with any other Proposer, and that the contents of any response as to prices, terms or conditions of said response have not been communicated in any manner to any other person engaged in this type of business prior to the official opening of this solicitation.

(i) You hereby assign to City any and all claims for overcharges associated with this contract which arise under the antitrust laws of the United States, 15 USCA Section 1 et seq., and which arise under the antitrust laws of the State of Texas, Tex. Bus. & Com. Code, Section 15.01, et seq.

3.3 PAYMENT AND INVOICING

3. The City may withhold or set off the entire payment or part of any payment otherwise due the Vendor to such extent as may be necessary on account of:
   a. Reasonable evidence that the Vendor’s obligations will not be completed within the time specified in the Contract, and that the unpaid balance would not be adequate to cover actual or liquidated damages for the anticipated delay;
   b. Payment will be made by check unless the parties mutually agree to payment by credit card or electronic transfer of funds. The Contractor agrees that there shall be no additional charges, surcharges, or penalties to the City for payments made by credit card or electronic funds transfer.

(d) **NOVATION/NAME CHANGE** If you change your name or ownership (NOVATION), notify the City’s Purchasing Representative immediately. The change must be approved by the City Manager before any change can be recognized in the contract.

3.4 **F.O.B. DESTINATION** Title and risk of loss of the goods will not pass to City until receipt and acceptance takes place at the F.O.B. point. Contractor will be responsible to deliver to the destination(s) shown in the schedule (or in more detail in resultant orders), unload, remove any debris caused by the Contractor at final destination at Contractor’s expense, as applicable.

3.5 **NO CITY OFFICER, EMPLOYEE OR ELECTED OFFICIAL WILL BENEFIT** from this contract. They may not hold a share or interest in its proceeds. If the award is to a corporation, however, the provision does not apply to minority stockholders of publicly traded corporations.

3.6 **NO GRATUITIES** (in the form of entertainment, gifts, or otherwise) may be offered or given by the Proposer or Awardee or any of their agents or representatives, to any City officer or employee for the purpose of securing a contract or securing favorable treatment in the award or amendment of a contract, or to determinations concerning performance of the contract. Violation is cause for termination of the contract by written notice by the City, followed by an opportunity for a hearing. The facts of the City Council findings can be an issue for review by any competent court. Contractual remedies that apply to BREACH of contract apply if terminated under this provision. A penalty of exemplary damages, in an amount determined by City Council of not less than three nor more than ten times the cost incurred by the violator in providing any gratuity, in addition to any other damages to which City is entitled by law, is recoverable.

3.7 **FORCE MAJEURE** Neither party can be held responsible for losses of any kind because of causes not within their control, if reasonable diligence has been exercised to prevent the loss or delay.

3.8 **PROTESTS, DISPUTES AND APPEALS** A contract may not be awarded to a Proposer who is not the best value Proposer meeting specifications unless, before the award, each lower Proposer is given notice of the proposed award and is given an opportunity to appear before City Council and present evidence concerning their responsibility.

(a) Protest before award must be submitted in writing to the City’s Purchasing Representative and will be heard by City Council prior to award.

(b) Protests after award must be submitted in writing to the City’s Purchasing Representative within ten (10) calendar days after notification of such award. The City’s Purchasing Representative routinely will forward a written reply to the protestant within ten calendar days from receipt thereof. If the protestant is not satisfied with the reply of the City’s Purchasing Representative, the protestant may appeal the decision within ten calendar days after receipt thereof, to the City’s Purchasing Representative outlining in detail the exact point(s) of disagreement. Should the matter not be resolved to the satisfaction of the Proposer/Contractor, the appeal will be submitted to City Council. The appellant will then have the right to be heard in open court by City Council.

(c) CITY Finance Department, Purchasing Division, acts as an official City representative in the issuance and administration of this contract, and may issue and receive all documents, notices, and correspondence. Such documents, notices, and correspondence not issued by or received by CITY Finance Department, Purchasing Division, may be null and void.

(d) The decision of City Council will be final and conclusive, and will be binding on all parties concerned, appealable in a court of competent jurisdiction in this City, and in accordance with the laws of the State of Texas.

3.9 **TERMINATION CLAUSES**

(a) **TERMINATION FOR DEFAULT**

Pertaining to contract-related issues, it is the responsibility of both the City of New Braunfels and the awarded Contractor to communicate with each other in as clear and complete a manner as possible. If at any time during the term of this contract the City or the Contractor is not satisfied with any issue, it is the responsibility of that party to deliver to the other party communication, in writing, fully detailing the issue and associated corrective action. The other party will, within 10 days, respond in writing to the other party. If conditions warrant, the City will retain the right to require the Contractor to respond in a shorter period of time. Failure to take corrective action or failure to provide a written reply within the prescribed 10 days may constitute a default of contract.

Prior to termination, the City may choose to warn the Contractor, verbally or in writing, of any issue of non-compliant or unsatisfactory performance. Such written warning may include placing the Contractor on probation, thereby giving the Contractor a certain period of time to correct the deficiencies or potentially incur termination. The City will maintain in the contract a written record of any such warning detailing all pertinent information. If the Contractor does not agree with such action, the Contractor will have 10 days to dispute or protest, in writing, such action; if Contractor does not do so within the 10-day period, Contractor will have no recourse but to accept and agree with the City’s position on the issue. The written protest must detail all pertinent information pertaining to the dispute, including justification detailing the City’s alleged incorrect action(s).

If the Contractor is in material breach of the contract, the City may promptly terminate the contract in whole or in part. Such termination must be delivered to the Contractor in writing and will fully detail all pertinent issues pertaining to the cause of and justification for the termination. The termination will be effective upon the date set forth in the notice and will not relieve Contractor of any liability to the City for damages sustained by virtue of any breach by Contractor.

After termination, if the Contractor does not agree with the City’s justification for the termination, the Contractor will have
10 days to dispute, in writing, such action; if Contractor does not do so within the 10-day period, Contractor will have no recourse but to accept and agree with the City's position on the issue. The written protest must detail all pertinent information pertaining to the dispute, including justification detailing the City's alleged incorrect action(s). Termination by City may be directed by City Director(s), without further action by City Council. However, if necessary, City Council may take whatever action as its interest may appear, resulting from such notice.

City reserves the right to enforce the performance of this contract in any manner prescribed by law in the event of breach or default of this contract and may contract with another party with or without solicitation of Proposals or further negotiations. As a minimum, Contractor may be required to pay any difference in the cost of securing the products or services covered by this contract or compensate for any loss to City should it become necessary to contract with another source because of default, plus reasonable administrative costs and attorney's fees.

(b) If it is in the PUBLIC INTEREST TO TERMINATE the contract, the City Council reserves the right to do so. If terminated for the public good, all costs directly attributable to work done or supplies obtained in preparation for completion or compliance with the contract prior to termination will be paid. Costs are excluded which are recoverable in the normal course of business or which can be mitigated through the sale of supplies or inventories. In the event City pays for supplies or materials, they will become the property of CITY and will be delivered to the F.O.B. point shown in the contract, or as designated by the City Finance Department, Purchasing division. No anticipated profits are payable.

3.10 CONTRACT CONSTRUCTION
(a) Provisions Words, Phrases, and Statutes, whether incorporated by actual use or by reference, will be applied to this contract in accordance with Government Code 311.001 et seq Code Construction Act. Wherever "City" is used herein, it is understood to mean "New Braunfels, Texas".
(b) In the event of inconsistency between provisions of this solicitation, the inconsistency will be resolved by giving PRECEDENCE in the following order: (a) the Schedule of Items/Services and Specifications; (b) Special Provisions; (c) General Provisions; (d) Terms and Conditions of Request for Proposal/Invitation for Bid; (e) other provisions, whether incorporated by reference or otherwise.
(c) The written contract is the SOLE AGREEMENT between the parties and supersedes any prior understanding or written or oral agreement on the subject matter.
(d) No provision of the contract will be deemed waived, amended, or MODIFIED unless such change is IN WRITING AND SIGNED by both parties.
(e) Terms addressed in the solicitation apply to the contract, as well.

3.11 ANTI-LOYBING AND PROCUREMENT
Lobbing activities or representations by the Bidder are prohibited between the date that the solicitation is issued and the date of contract execution. During a no-contact period, a bidder shall make a representation only through the authorized contact person on this solicitation. During the no-contact period, a bidder may not make a representation to a City official or to a City employee other than to the authorized contact person. This prohibition also applies to a vendor that makes a representation and then becomes a bidder. The prohibition of a representation during the no-contact period applies to a representation initiated by a bidder, and to a representation made in response to a communication initiated by a City official or a City employee other than the authorized contact person.

3.12 PRE-AWARD SURVEY
After CSP closing and prior to award, City reserves the right to make a pre-award survey of any or all Proposer's facilities and equipment to be used in the performance of work under this solicitation. Proposer agrees to allow all reasonable requests for inspection with two (2) days advance notice. Failure to allow such an inspection is cause for rejection of Proposals as non-responsive. City reserves the right to reject facilities or equipment as a result of this survey. In addition, Proposer's reputation relating to quality of performance may also be used for purposes of evaluating Proposer's suitability for award of this solicitation. Additionally, you may be required to make appropriate financial data available for review. An acceptable review would result in the data being returned. Should the data be the basis for a determination of non-responsibility, then the data would be presented to City Council and filed for record.

3.13 AWARD OF CONTRACT
(a) Award will be made to the responsible Proposer(s) who submits the lowest and best Proposal(s), or to the responsible respondent(s) whose Proposal is most advantageous to the City, price and other factors considered. When payments are to be made to the City, award will be made to the highest Proposer. After approval by City Council, City Manager will sign Contract Award form and City Finance Department, Purchasing Division, will issue fully executed contract to the successful Proposer. No contract exists until the signed document is delivered.

(b) It is the intent of the City to make multiple awards if deemed in the best interest of the City.
   1. The City reserves the right to not award specific lines if deemed not in the best interest of the City.
   2. City reserves the right to accept any item or group of items offered, unless the Proposer qualifies their Proposal by specific limitations.

(c) City may reject a Proposal (or all Proposals) if not satisfactory to City Council. City also reserves the right to waive minor
informalities or irregularities in any Proposal.

(d) Other factors may be considered in determining the successful Proposal when they are applicable, such as administrative cost for a multiple award calculated at $500 per award, warrantees and guarantees, delivery or production schedule/performance period offered, and ability to perform as requested in bid specifications.

(e) Ties will be broken by consideration of delivery time or delivery schedule.

(f) Texas provides no advantage to resident Proposers in the award process. However, offers from another state where that state favors their residents will be evaluated by adding the same differential to the Proposal that would be required for a non-resident Proposal to be awardable in their resident state. For example, how much lower a Texas firm must be in that state than one of their resident Proposals in order to be the awardee.

(g) Pursuant to Local Government Code §271.9051, the City of New Braunfels has a local preference resolution 2009-R61. This resolution authorizes the municipality to enter into a contract with the lowest Respondent or the Respondent whose principal place of business is in the City of New Braunfels if that local Respondent is within five percent of the lowest bid price received from a Respondent who is not a resident and offers the municipality the best combination of contract price and additional economic development opportunities for the City created by the contract award; including the employment of residents of the municipality and increased tax revenues to the municipality and the contract is less than $100,000. This provision does not prohibit the City of New Braunfels from rejecting all bids.
SECTION 3 - SPECIAL TERMS AND CONDITIONS

These Special Terms and Conditions are changes to or addition to the Solicitation and contract requirements. By execution of the solicitation, the Proposer is certifying they accept all conditions of the contract as outlined below and within the bid specifications.

SECTION 5
GENERAL REQUIREMENTS

5.3 PRICE ADJUSTMENTS

After the pricing schedule has been established in the initial agreement, requests for price increases and/or decreases must be made in writing and submitted by an authorized representative of the Awarded Vendor to the Purchasing representative noted on Page 1 of this Solicitation. Vendor must submit supportive documentation for increase request. Price adjustments are at the discretion of the City and adjustments shall be approved at the City’s discretion, with City Manager’s approval, as needed.

The City prefers that price adjustments be based on unadjusted percent change for the preceding year in the CPI-W under the expenditure category entitled “All items less power and energy”, which is provided by the U.S. Bureau of Labor Statistics. Any other sources to support a request for price adjustment must be mutually agreed upon by City and Vendor.

If any such change causes an increase or decrease in the cost of, or time required for, performance of any part of the work under this contract, whether or not changed by the order, the City will make an equitable adjustment in the contract price, the delivery schedule, or both, and will modify the contract. The Contractor must submit any "Proposal for adjustment" under this clause within 30 days from the date of receipt of the written order. However, if the City decides that the facts justify it, the City may receive and act upon a Proposal submitted before final payment of the contract. If the Contractor's Proposal includes the cost of property made obsolete or excess by the change, the City will have the right to prescribe the manner of disposition of the property. Failure to agree to any
adjustment will be a dispute under the Disputes and Appeals clause. However, nothing in this clause will excuse the Contractor from proceeding with the contract as changed.

The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016. The completed and signed Form 1295 must be filed with the governmental body or state agency with which the business entity is entering into the contract; the governmental body or state agency will subsequently acknowledge the Certificate of Interested Parties (Form 1295) on the TEC website.

The contract shall govern the Contractor’s and City’s rights and obligations with respect to that order to the same extent as if the order were completed during the contract’s effective period.

(h) If applicable, all traffic control devices shall be provided by the Contractor and shall comply with all TMUTCD regulations.
6.2 SCOPE OF WORK
The City of New Braunfels is seeking qualified contractors to provide demolition services for buildings or structures on an as-needed basis. The scope of work may include, but not be limited to, the removal of all construction materials from the jobsite, including the building slab, the removal of all debris, and Contractor must backfill all voids created by demolition with City-approved material, including but not limited to, existing fill material on property. If applicable, tanks (above or below ground) must be emptied, cleaned and removed. As an alternative, underground tanks, if not removed, must be emptied, cleaned and filled with a clean inert material.

NOTE: A separate permit is required for each separate building or structure being removed in whole or in part.

6.3 SPECIFICATIONS
• Contractor is responsible to have all the equipment, labor and materials to be able to do the job.

• Plumbing Permit: A master plumber must obtain a plumbing permit and disconnect all sewer and water supply lines connected to the building or structure being demolished. Plumbing permits can be obtained at the address on Page 1 of the solicitation.

• Sewer Disconnected: The plumber must have the sewer disconnect permitted, inspected and approved by the City prior to requesting a demo permit.

NOTE: When a structure has no plumbing or sewer to disconnect, approval must be obtained from the City before requesting a demo permit.

• Asbestos Survey: All commercial and residential structures require proof of an asbestos inspection from a state certified third party inspector before a demolition permit can be issued. Proof of the asbestos inspection must be provided when applying for the demo permit. The demolition contractor is responsible for obtaining the asbestos survey.

• Demolition Permit: The City will review the application, the asbestos survey, and the computer records for the address specified to verify the plumbing disconnect has been inspected and finalized. When all the requirements have been completed, a demo permit will be issued.

NOTE: All demolition permits include the following notation:

“Demolition on private property only. This permit does not grant authority for work in the City’s right-of-way (which may include unpaved areas). Do NOT remove sidewalks, driveways, curbs, ramps or trees from within the street right-of-way.”

• Unless otherwise approved by the City, all work is to be performed within 7 to 10 calendar days of Work Order or Release Order submitted.

• Mowing requirement and disposal: Mowing height, for both vacant and substandard lots, shall be three (3”) inches. Grass trimmings and cuttings and all identified debris located on each site shall be removed from the lots. The debris shall be taken for disposal to a permitted and licensed land disposal facility. The contractor shall dispose of all associated materials identified as eligible, including demolition materials, vegetation refuse, trash and debris at an approved landfill and shall submit a copy of the weight slip and charges with their invoice as proof of compliance.

• The contractor shall ensure that all fire hydrants and water control valves shall be kept free of obstruction and available for use at all times.
• **Clean-Up:** It shall be the responsibility of the contractor to remove from the job site and properly dispose of all residues at the end of each workday. Materials and equipment left on site overnight shall be clearly marked and identified so as to ensure public safety. No materials or equipment shall be left on site over a weekend unless arrangements have been made with and approved by the City. Contractor shall be responsible for any materials or equipment left on site. Any loss of materials or equipment due to theft, vandalism, or any other mishap shall be the responsibility of the contractor.

• **Price Structure:** The contracted rate for the demolition of a specific structure shall be determined by calculating the total square footage of the City-designated structure. Calculating the square footage shall be the responsibility of the City and the City’s calculation shall be presumed accurate. In addition, City may, in its sole discretion, rely upon the square footage provided by the Comal or Guadalupe County Appraisal.

• Respondents shall submit their price proposals, based upon demolitions for asbestos containing structures and non-asbestos containing structures. If applicable, excavation and leveling will be calculated and price proposals submitted on a cubic yard basis.

• **Asbestos Identification and Responsibility:** Contractor shall dispose of all Asbestos Containing Materials (ACM) as regulated waste. The contractor shall be prepared to provide resources such as certified and trained supervisory personnel and asbestos workers, furnish all required or necessary equipment and supplies, and provide insurance and transportation as required to manage this type of waste. The contractor shall mark vehicles used to transport asbestos containing waste material during the loading and unloading of waste so that the signs are visible. The markings shall conform to the requirements of EPA NESHAP regulation 40 CFR §61.169(d) 1.

• Additionally, the contractor shall provide a competent person on-site to identify hazards and conditions, including potential asbestos that may be identified prior and/or during the demolition. The contractor shall dispose of known asbestos containing materials (ACM) at a disposal facility licensed or permitted to receive special wastes.

• **Wet Demolition:** All demolitions shall be performed as wet demolitions. A “wet demolition” shall be defined as the demolition of a structure while applying a sufficient amount of water to eliminate any visible emissions of dust. Contractor shall make every attempt to keep this water from migrating off the site. The “wet demolition” process shall be more critical in emergency conditions where a regulated structure is in imminent danger of collapse and cannot be entered into safely for materials testing or for asbestos abatement activities, or where it is already on the ground.

6.4 **WARRANTY AND GUARANTEE; TESTS AND INSPECTIONS; CORRECTION, REMOVAL, OR ACCEPTANCE OF DEFECTIVE WORK**

6.4.1 **Warranty and Guarantee**

The Contractor warrants and guarantees to the Owner that all work will be new, of merchantable quality, in fully operative condition, fit for the intended use, of good quality, and free of any defective work. The Owner will give prompt notice of defective work to the Contractor. All defective work, whether or not in place, may be rejected, corrected or accepted as specified in this bid, or as agreed upon by the Project Manager. The Contractor will be responsible for all direct, indirect and consequential costs and damages resulting from the defective work, and for all direct, indirect and consequential damages resulting from the Contractor's breach of separate specific warranties or guarantees required by the specifications. These warranties take precedence over any other provisions of the Contract Documents unless otherwise provided in the Supplementary Conditions.

6.4.2 **Tests and Inspections**

CSP 20-006  Page 26
If the Contract Documents or any laws and regulations specifically require any work to be inspected, tested, or approved, the Contractor will notify the Inspector to arrange for the inspections and tests. All inspections, tests, and approvals will be performed by firms selected by the Owner. The Owner will pay for initial tests and inspections, and the Contractor will pay for all retests and failed inspections. The Owner may withhold the cost of all failed inspections and retests from payments to the Contractor and may remit these amounts to the inspection or testing firm. The Contractor will furnish the Owner with all required certificates of inspection, testing, and approval. The inspections by the Owner and any inspections, tests, or approvals by firms other than the Owner will not relieve the Contractor from its obligations to perform the work in accordance with the Contract Documents.

6.4.3 Uncovering of Work

If any work is covered contrary to the Contract Documents or the direction of the Owner, the Contractor will uncover the work at the Owner’s request and replace the work thereafter at the Contractor’s expense. If any work required to be inspected, tested, or approved is covered without the written approval of the Owner, the Contractor will uncover the work at the Owner’s request at the Contractor’s expense unless the Contractor has given the Owner adequate notice of the Contractor's intention to cover the work, and the Owner has not responded with reasonable promptness to that notice. If the Owner considers it necessary to uncover work that was covered in conformity with the Contract Documents work and any directions of the Owner, the Contractor will uncover, expose, or otherwise make the work available to be observed, inspected, or tested as directed by the Owner, furnishing all necessary labor, material, and equipment. If any defective work is found, the Contractor will bear all expenses of the uncovering and of the observation, inspection and testing, including compensation for additional professional services, and a deductive change order will be issued. If the work is not found to be defective work, the Contractor may submit a claim for an increase in the Contract Price or an extension of the Contract Time, or both as the increases are directly attributable to the uncovering. The Contractor will correct any uncovered work that is found to be defective at the expense of the Contractor.

6.4.4 Correction or Removal of Defective Work

The Contractor will promptly correct or remove any defective work, including fabricated, installed, or completed work, and replace it with non-defective work, as determined by the Owner, without cost to the Owner, before approval of final payment. Additional sampling or testing required by a correction to defective work will be withheld from any money due or to become due to the Contractor. Final payment will not be made until all additional sampling and testing have been invoiced to the Owner and deducted from the Contractor's final payment. If the Contractor does not correct or remove and replace any defective work within a reasonable time as specified in a written notice from the Owner, the Owner may have the defective work corrected or removed and replaced. All direct, incidental, and consequential costs of the correction or removal and replacement, including compensation for additional professional services, will be charged to the Contractor. The Contractor will also bear the expenses of making good all work of others destroyed or damaged by the correction, removal, or replacement of the Contractor's defective work.

6.4.5 Access to Work

The Contractor will provide the Owner and its representatives with access to the work at all times. The Contractor will provide proper and safe facilities for this access and for observation, inspection, and testing of the work.

6.4.7 One (1) Year Warranty Against Defective Work

If any of the work, including fabricated, installed, or completed work, is found to be defective work within one (1) year after the Owner's approval of final payment, the Contractor will
promptly correct the defective work, or remove it from the site and replace it with non-defective work, as determined by the Owner, without cost to the Owner. If the Contractor does not correct or remove and replace the defective work within the time specified in a written notice from the Owner, the Owner may have the defective work corrected or removed and replaced. The Owner will immediately repair any defects in an emergency situation and will invoice the Contractor for the work. All direct, incidental, and consequential costs of the correction or removal and replacement, including compensation for additional professional services, will be paid by the Contractor within thirty (30) days of the Owner's submission of a statement to the Contractor. This provision does not limit any other obligations of the Contractor under the Contract Documents or serve as an exclusive remedy of the Owner. This bid defines the Contractor's obligation to correct defective work; it does not relate to the time within which the Contractor's obligations under the Contract Documents may be enforced, or within which proceedings may be commenced to establish the Contractor's liability. The term of the performance bond extends to include this warranty period.

6.4.8 Acceptance of Defective Work
The Owner may choose to accept defective work instead of requiring the Contractor to correct or remove and replace it. If the Owner's acceptance occurs before approval of final payment, a change order may be issued incorporating necessary revisions in the Contract Documents and a reduction in the Contract Price. If the acceptance occurs after approval of final payment, the Contractor will pay the amount of the reduction in Contract Price to the Owner within thirty (30) days of the Owner's submission of a statement to the Contractor. The Owner will determine the amount of the reduction in the Contract Price based on the defective work.

6.4.9 Work Neglected by Contractor
If the Contractor fails to carry out the work in accordance with the Contract Documents, including any requirements of the progress schedule, the Owner may correct the deficiencies without prejudice to any other remedy, and all direct, indirect, and consequential costs and damages incurred as a result, including compensation for additional professional services, will be deducted from the Contractor's subsequent pay request. If the payments due the Contractor are not sufficient to cover the amount, the Contractor will pay the difference to the Owner within thirty (30) days of the Owner's submission of a statement for the amount to the Contractor.

6.5 FEDERALLY FUNDED PROJECTS:
City-authorized projects supported by this contract may be funded in full or in part with Federal funds, including, but not limited to, Community Development Block Grant (CDBG) or Community Development Block Grant - Disaster Recovery (CDBG-DR) funds which are Federal funds provided to the City by the U.S. Department of Housing and Urban Development (HUD). Such funded projects are subject to the requirements of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards contained in 2CFR, Part 200, Appendix II, “Contract Provisions for Non-Federal Entity Contracts Under Federal Awards.”

As applicable, Contractor shall be responsible for complying with all Federal, State, County, and City laws, codes, and ordinances applicable to the performance of any federally funded work resulting from this solicitation. Contractor is also required to adhere to all applicable local environmental ordinances and federal and state laws and standards. Ignorance on the part of the Contractor will in no way relieve the Contractor from responsibility.

The bidder is responsible to be informed of, and the bidder awarded the contract shall comply with, all federal, state, and local laws, statutes, and ordinances relative to the execution of the work. This requirement includes, without limitation, applicable regulations concerning minimum wage rates, nondiscrimination in the employment of labor, protection of public and employee safety and health, permits, fees, and similar subjects.
6.6 CONTRACTOR CERTIFICATIONS:
Contractor certifies that it has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for or in executing the Contract. For the purposes of this Paragraph:

6.6.1 “corrupt practice” means the offering, giving, receiving, or soliciting of anything of value likely to influence the action of a public official in the bidding process or in the Contract execution;

6.6.2 “fraudulent practice” means an intentional misrepresentation of facts made to influence the bidding process or the execution of the Contract to the detriment of Owner, to establish Bid or Contract prices at artificial non-competitive levels, or to deprive Owner of the benefits of free and open competition;

6.6.3 “collusive practice” means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish Bid prices at artificial, non-competitive levels; and

6.6.4 “coercive practice” means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

6.7 PAYMENT OF SERVICES
Contractor shall submit their invoice for payment after completion of each project to the identified City representative at the pre-construction meeting. Please ensure your invoice is itemized and references your purchase order number on the invoice.

Exact arrangement for emailing invoice electronically by email to select City employees will be established at the pre-construction meeting to ensure prompt payment by the City. The City is NET 30 and a tax-free entity.
