04.15.10 Certificate of Interested Parties (Form 1295)

Texas Government Code §2252.908, and the rules issued by the Texas Ethics Commission (TEC) found in Title 1, Sections 46.1, 46.3 and 46.5 of the Texas Administrative Code, require a business entity to submit a completed Certificate of Interested Parties (Form 1295) to the City before the City may enter into a contract with that business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency.

The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

**Standard Filing Process: Form 1295** is accessible at, and must be completed online, at the following web address: [https://www.ethics.state.tx.us/whatsnew/elf_info_form1295.htm](https://www.ethics.state.tx.us/whatsnew/elf_info_form1295.htm)

A business entity must enter the required information as directed on Form 1295 and then print a copy of the completed form after it has been submitted online. It is important to note that the information that is required in ‘Certification Number’ and ‘Date Filed’ fields in the ‘Certification of Filing’ box on the form will not be generated until the form has been submitted, not saved. An authorized agent of the business entity must then sign the printed copy of the form, containing the unique Certification Number and filing date, in the presence of an authorized notary. The notarized Form 1295 must be filed with the governmental body or state agency with which the business entity is entering into the contract; the governmental body or state agency will subsequently acknowledge the Certificate of Interested Parties (Form 1295) on the TEC website.
Solicitation Document: If a completed Form 1295 is requested in a solicitation document issued by the City, Respondent shall reference the City’s solicitation number in Box 3 of the form as a contract number is not generated until the award of a contract by City Council. Respondents must submit the original, notarized form with their response to the solicitation. The City will subsequently acknowledge the Certificate of Interested Parties (Form 1295) on the TEC website when the contract has been awarded.

04.15.11 Requirement for Disclosure of Conflict of Interest

In accordance with Chapter 176 of the Texas Local Government Code, “Disclosure of Certain Relationships with Local Government Officers,” persons, or their agents who seek to contract for the sale or purchase of property, goods, or services with the City, shall file a Conflict of Interest Questionnaire (Form CIQ) with the City Secretary if the vendor has a business relationship as defined by Section 176.001(1-a) with the City and the vendor meets requirements under Section 176.006(a).

Form CIQ is available from the Texas Ethics Commission by accessing the following web address: https://www.ethics.state.tx.us/filinginfo/conflict forms.htm

The Conflict of Interest Questionnaire (Form CIQ) is required to be filed within 7 business days of:

a. Beginning of discussions or negotiations to enter into a contract with the City; or
b. Submission of an application, response to a request for proposals or bids, correspondence or other writing related to a potential agreement with the City.

If requested in the solicitation document, all respondents are to submit a completed Conflict of Interest Questionnaire (Form CIQ) with their proposal in addition to submitting a completed Form CIQ to the office of the City Secretary located at 550 Landa Street; New Braunfels, Texas 78130.

By law, Form CIQ must be filed with the City Secretary no later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed as per Section 176.006(a-1). A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

05.02.02 Complete sets of Proposal Documents must be used in preparing Proposals; neither Owner nor Design Engineer assumes any responsibility for errors or misinterpretations resulting from the use of incomplete sets of Proposal Documents.

05.02.03 Owner, in making copies of Proposal Documents available on the above terms, do so only for the purpose of obtaining Proposals on the Work and do not confer a license or grant for any other use.

05.02.04 Complete sets of Proposal Documents may be downloaded at http://www.bidnetdirect.com/texas and the City website, http://www.nbtexas.org, unless otherwise notified.

ARTICLE 3 – EXAMINATION OF CONTRACT DOCUMENTS AND SITE

05.03.03 On request in advance, Owner will provide each Proposer access to the site to conduct such explorations and tests as each Proposer deems necessary for submission of a Proposal. Proposer shall fill all holes, clean up, and restore the site to its former condition upon completion of such explorations. The Proposer shall be responsible for the expenses associated with such tests and explorations.
05.03.04 The lands upon which the Work is to be performed, rights-of-way and easements for access thereto and other lands designated for use by Contractor in performing the Work are identified in the Contract Documents. All additional lands and access thereto required for temporary construction facilities or storage of materials and equipment are to be provided by Contractor. Easements for permanent structures or permanent changes in existing structures are to be obtained and paid for by Owner unless otherwise provided in the Contract Documents.

Questions received less than ten days prior to the date for opening of proposals may not be answered. Only questions answered by formal written Addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.

05.04.02 Addenda may also be issued to modify the Proposal Documents as deemed advisable by Owner.

ARTICLE 5 – PROPOSAL GUARRANTY

05.05.01 All Proposals shall be accompanied by a proposal guaranty in an amount of not less than five percent (5%) of the total Proposal. If the total Proposal amount is $100,000 or less, Proposer has the option of providing a cashier's or certified check, made payable to City of New Braunfels, or a proposal bond with Power of Attorney attached, issued by a solvent surety authorized under laws of the State of Texas and acceptable to Owner. If the total Proposal amount exceeds $100,000, the only acceptable proposal guaranty will be a proposal bond with Power of Attorney attached, issued by a solvent surety authorized under laws of the State of Texas and acceptable to Owner.

05.05.02 Proposal guaranty accompanying the Proposal of the apparent low Proposer will be retained until Contract is awarded and successful Proposer executes Contract and furnishes required bonds and insurance, after which proposal guaranty will be returned to the Proposer. The materials and equipment described in the Proposal Documents establish a standard of required type, function and quality to be met by any proposed substitute or “or-equal” item. No item of material or equipment will be considered by Owner as a substitute or “or-equal” unless written request for approval has been submitted by Proposer and has been received by Owner at least 15 days prior to the date for receipt of Proposals. Each such request shall conform to the requirements of Paragraph 6.05 of the General Conditions. The burden of proof of the merit of the proposed item is upon Proposer. Owner’s decision of approval or disapproval of a proposed item will be final. If Owner approves any proposed item, such approval will be set forth in an Addendum issued to all prospective Proposers. Proposers shall not rely upon approvals made in any other manner.

ARTICLE 10 – SUBCONTRACTORS, SUPPLIERS AND OTHERS

05.10.01 If the Supplementary Conditions require the identity of certain Subcontractors, Suppliers, individuals, or entities to be submitted to Owner in advance of a specified date prior to the Effective Date of the Agreement, the apparent Successful Proposer, and any other Proposer so requested, shall within five days after Proposal opening, submit to Owner a list of all such Subcontractors, Suppliers, individuals, or entities proposed for those portions of the Work for which such identification is required. If the Substitute will cause the cost of the work to increase the owner will agree to increase the contract price by the corresponding increase.

05.10.02 If apparent Successful Proposer declines to make any such substitution, Owner may award the Contract to the next lowest Proposer that proposes to use acceptable Subcontractors, Suppliers, individuals, or entities. Declining to make requested substitutions will not constitute grounds for forfeiture of the Proposal security of any Proposer. Any Subcontractor, Supplier,

giving of the Notice of Award will be deemed acceptable to Owner subject to revocation of such
acceptance after the Effective Date of the Agreement.

The Contractor must submit any "proposal for adjustment" under this clause within 30 days from the date of receipt of the written order. As part of its obligations within the Contract Documents, the Contractor agrees, at no additional cost to the Owner, to cooperate with the Owner for any particular needs or obligations arising out of the Owner’s obligations under the TPIA. This acknowledgement and obligation are in addition to and complimentary to the Owner's audit rights in section 13.7 of the General Conditions.

05.26.03 This provision applies if the Agreement has a stated expenditure of at least $1 million in public funds for the purchase of goods or services by Owner or results in the expenditure of at least $1 million in public funds for the purchase of goods or services by Owner in a fiscal year of the Owner. Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other...
health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of “identifiers” that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than “SU” or “UAVG” denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the “SU” identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and
non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

----------------------------------------------------------------

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal
process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final."

SUPPLEMENTARY PROVISIONS

These Supplementary Provisions are changes to, or additions to, the requirements of the Project Manual (Sections 7-29) of the Contract and are a part of the Contract Documents.

The following General Notes are added to the Project Manual:

Refer to drawings and construction notes made a part of this solicitation.

1.1 MANUFACTURER’S CERTIFICATES. All manufacturers’ certificates required herein are to be furnished by the Contractor at his own expense.

1.2 BOUNDARIES OF WORK. The Owner will provide land and rights-of-way for the work specified in this contract and make suitable provisions for ingress and egress. The Contractor shall not enter on or occupy with men, tools, equipment, or materials, any ground outside the property of the Owner without the written permission of the Owner of such ground. Other contractors and employees or agents of the Owner may, for all necessary purposes, enter upon the work and premises used by the Contractor, and the Contractor shall conduct his work so as not to impede unnecessarily any work being done by others on or adjacent to the site.

1.3 HAULING OF MATERIALS. Any vehicle, truck, truck-tractor, trailer or semi-trailer or combination of such vehicles, when used to deliver materials to a project, shall comply with the State laws concerning the gross weight of such vehicle or combinations of vehicles and load and the allowable axle weights, unless authorized by permit to exceed the legal weight.

1.4 EXAMINATION OF THE PROJECT SITE. Prospective bidders shall make a careful examination of the site of the project, soil and water conditions to be encountered, improvements to be protected, disposal sites for surplus material not designated to be salvage materials, and as to methods of providing ingress and egress to private properties.

1.5 QUANTITIES. The quantities of each item on the bid proposal blank represent the approximate amount of work to be done. Final quantities completed will be determined and paid for by actual measurements on the ground of the final work completed. No incidental items or work will be paid for unless there appears an item in the proposal for such work. It must be strictly understood that the prices bid are for complete and acceptable work.

1.6 MATERIALS. The Contractor shall furnish all materials for a complete job as shown on the plans and as required by the specifications.

1.7 EXISTING STRUCTURES. The plans show the locations of all known surface and subsurface structures. However, the Engineer assumes no responsibility for failure to show any or all the structures on the plans or to show them in their exact locations. It is mutually agreed that such failure to show these structures will not be considered as a sufficient basis for claims for additional compensation for extra work, or for increasing the pay quantities in any manner whatsoever, unless the obstruction encountered is such as to necessitate changes in the lines or grades, or requires the building of special work, provisions for which are not made in the plans and proposal, in which case the provisions in these specifications for extra work shall apply.
1.8 **TERMINATION OF CONTRACT IN CASE OF NATIONAL EMERGENCY.** Whenever, because of a national emergency so declared by the President of the United States or other lawful authority, it becomes impossible for the Contractor to obtain all of the necessary labor, material and equipment for the prosecution of the work with reasonable continuity for a period of two months, the Contractor shall, within seven days, notify the Owner in writing, giving a detailed statement of the efforts which have been made and listing all necessary items of labor, material and equipment not obtainable. If after investigation, the Owner finds that such conditions exist and that the inability of the Contractor to proceed is not attributable in whole or in part to the fault or neglect of the Contractor, then if the Owner cannot, after reasonable effort, assist the Contractor in procuring and making available the necessary labor, materials, and equipment within thirty days, the Contractor may request the Owner to terminate the contract and the Owner shall within thirty days comply with the request, and the termination shall be based on a final settlement, which shall include, but not necessarily be limited to, the payment for all work executed.

1.9 **COPIES OF PLANS AND SPECIFICATIONS.** Two (2) sets of the Plans and Specifications shall be furnished to the Contractor, without charge, for construction purposes. Additional copies may be obtained from the Engineer at actual reproduction cost.

1.10 **REFERENCE SPECIFICATIONS.** Where reference is made in these specifications to specifications compiled by other agencies, organizations, or departments, such reference is made for expediency and standardization from the material suppliers' point of view, and such specifications referred to are hereby made a part of these specifications.

Whenever reference is made to the furnishing of materials or testing thereof to conform to the Standards of any technical society, organization, or body, it shall be construed to mean the latest standard, code, specification, or tentative specification adopted and published at the time of advertisement for bids, even though reference has been made to an earlier standard, and such standards are made a part hereof to the extent which is indicated or intended.

If field conditions vary from those shown on the contract plans, the Contractor shall notify the Engineer immediately of field conditions to be encountered, so enough time exists to make any necessary adjustments in line or grade. **Failure by the Contractor to make proper and timely verification of the above described utilities shall be justification for rejection of any claims for extra cost by the Contractor.**

If, after field verification, it is necessary to change or move the property of a property owner or of a public utility, Ten (10) days' notice shall be given before such change, and such property shall not be
moved or interfered with until authorized by the property owner or the utility company. The right is reserved to the property owner or public utilities to enter upon the limits of the project for the purpose of making such changes or repairs of their property that may be made necessary by the performance of this contract.

1.18 FENCES, IMPROVEMENTS, AND DRAINAGE CHANNELS. The Superintendent must be capable reading, speaking and comprehending English. The Superintendent shall have full authority to execute orders or directions and to promptly supply such materials, equipment, tools, labor, and incidentals as may be required. Such superintendence shall be furnished irrespective of the amount of work subcontracted.

The Contractor shall always be responsible for supervision of all work performed by the Subcontractor during construction.

1.20 HANDLING MATERIALS NOT APPROVED. The Contractor shall remove from the site any materials found to be damaged, and any materials not meeting the specifications. These materials shall be removed promptly, unless the Engineer and Owner will accept the materials after repairing. Materials found to be damaged, or not acceptable to the Engineer or Owner after installation, shall be removed or replaced as directed. Inspection before installation shall not relieve the Contractor from any responsibility to furnish materials meeting the specifications.

1.21 DUST CONTROL. Contractor shall take responsible measures to prevent unnecessary dust in the project area. Earth surfaces subject to dusting shall be kept moist with water or by application of a chemical dust suppressant. The project site is located within the Headwater at the Comal facility where extensive efforts have been made to remove invasive plant species and establish native plants. The Contractor must make all reasonable attempts to prevent the introduction of non-native, invasive plant material and seeds. This shall include washing of equipment prior that has been previously utilized for excavation and soil work in other areas prior to entering the premises, securing weed-free plants and utilization of seed-free fill and soil materials.

1.24 WORK HOURS. In general work shall be limited to 7am to 5pm on weekdays (Mon-Fri). Permission to perform work activities beyond these hours may be granted by the Owner. Requests by the Contractor shall be submitted to the project manager/Owner at least 48 hours prior to the request work period.

1.25 CULTURAL RESOURCE FINDINGS. The project is located within an area where cultural resources such as native American artifacts are commonly encountered. While cultural resource surveys have been conducted in the project area, there is a possibility that cultural remains such as arrowhead, spearheads, skeletal remains will be encountered. If any artifacts or cultural remains are encountered, the Contractor must stop work and contract the project manager/Owner and consign the found artifact to the project manager/Owner.
