It's All About Diabetes

Living with diabetes can be a challenge. But maintaining close-to-normal levels of blood sugar has been shown to reduce the risk of diabetes-related problems. That's why monitoring your blood sugar levels with a blood glucose meter is important for managing diabetes.

Choosing a Blood Glucose Meter

When choosing a meter, it often comes down to the features you're looking for. Here are a few things to consider when making your choice:

- How does the meter score for accuracy? Does it come with a control solution or test strip to check for accuracy?
- Does the meter fit in your backpack, supplies kit or purse?
- How skillful are you at handling those test strips? You might want to try a meter that uses cartridges instead of individual strips.
- How much blood does the meter require? Less is better.
- Do you want to download results to a computer or email them to your doctor's office?
- Interested in alternative site testing? There are meters that can test samples from various places on the body.

Checking Your Blood Glucose

Regular blood glucose checks and consistent record-keeping give you a good picture of where you are in your diabetes care.

Checks tell you how often your blood glucose levels are in your target range. Your target range is a personalized blood glucose range that you set with your doctor. Once you know how often and when to check, stick to the schedule and check at those times each day.

Keep a daily log recording your levels. Then take your log with you when you visit your doctor or other members of your diabetes care team. The information in your log will let them know how you are doing.

For more information about diabetes, go to [bcbstx.com](https://www.bcbstx.com), log in to Blue Access for MembersSM (BAMSM) and click on 'Wellness', click on 'Articles' and then select 'Diabetes' from the options. Blue Cross and Blue Shield of Texas (BCBSTX) offers certain blood glucose meters to members with diabetes at no additional charge.

Glucose Meters Are Available to You

BCBSTX is offering you a choice of the blood glucose meters below at no additional charge for a limited time to help you manage your condition. This offer is available through March 31, 2024.*

If you have BCBSTX prescription drug coverage, CONTOUR®NEXT test strips for the meters below are listed as preferred brands on your drug list. Coverage and payment levels for non-preferred brand test strips may vary, depending on your pharmacy benefit plan.

Please review these options and ask your doctor which meter best fits your needs.
