SECTION 4
GENERAL INFORMATION**ARTICLE 1**

04.01 This is a joint Road and Utility Project, LAST TUBER'S EXIT IMPROVEMENTS, between the City of New Braunfels and New Braunfels Utility ("NBU") (collectively "Owners"). The awarded contract shall have dual Ownership. The joint project will allow the City of New Braunfels to cooperatively purchase construction services in the best interest of both parties. The joint project will benefit from coordinating their respective parts of the Project in order to expedite project construction and realize cost savings and improvements in efficiency and quality of roadway, water and wastewater facilities.

Last Tuber's Exit Improvements is a project located within the City of New Braunfels.

The Project for which the Work under the Contract Documents may be the whole or only a part is generally described as follows:

Construction of Last Tuber's Exit Improvements includes new stairs to a landing on the riverbank. The new landing and stairs are to be constructed using concrete and will be supported on micropiles. This construction will need to be performed within a dewatered cofferdam. There will be handrails that extend into the water to aid tubers in their exit from the river. There is also a portion of the stairway that will aid disabled tubers in their exit from the river. This section of the stairway will have grab bars on the steps and a transfer system at the top of the stairs that will aid those who need to get into a wheelchair. A sign is to be added that directs disabled individuals to the location of the grab bars and transfer system. The project includes the addition of buoys to demarcate the start and end of the landing. Once the tubers exit the river there is an existing stairway and wheelchair ramp that provides access to the street. Along the stairway and ramp there are vegetation areas that are to be covered in permeable concrete. Existing joint offsets that are greater than 0.25" in elevation should also be ground down to be flush. A portion of an existing waterline that is to be abandoned must be plugged removed. A water meter at the bottom of the landing is to be moved near the street and lines to a new water fountain and spigots must be installed.

At all reasonable hours, such records shall be open to inspection by representatives of the Owners.

05.24.05 According to Chapter 2258 Texas Government Code Title 10A, a Contractor or subcontractor(s) who violates this section shall pay to the political subdivision on whose behalf the contract is made, \$60 for each worker employed for each calendar day or part of the day that the worker is paid less than the wage rates stipulated in the contract. CSP 24-024 Last Tuber's Exit
Exhibit 3

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Bidding Requirements, Contract Forms and Conditions of the Contract
PREVAILING WAGE RAES AND PAYROLL REPORTING
CSP 24-024 Last Tuber's Exit
Exhibit 3

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Washington, DC 20210

Exhibit 3

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

ARTICLE 4 - CONTRACT TIMES

4.01 Time of the Essence

A. Time is of the essence in all phases of the Work and performance of obligations owed by the Contractor to the Owners as stated in the Agreement and the Contract Documents. All time limits for Milestones, if any, Substantial Completion, and completion and **readiness for final payment** as stated in the Contract Documents are of the essence of the Contract. It is specifically understood and agreed by and between Owners and Contractor that time is of the essence in the substantial completion of the Work, and that failure to substantially complete the Work within the designated period, or as it may be extended, shall be construed as a breach of this Agreement.

4.02 Days to Achieve Substantial Completion and Final Payment

A. The Work will be substantially completed within 120 days after the date when the Contract Times commence to run as provided in Paragraph 2.03 of the General Conditions and completed and ready for final payment in accordance with Paragraph 14.07 of the General Conditions within 120 days after the date when the Contract Times commence to run.

4.03 Liquidated Damages

A. Contractor and Owners recognize that time is of the essence of this Agreement and that Owners will suffer financial loss if the Work is not completed within the times specified in Paragraph 4.02, plus any extensions thereof allowed in accordance with Article 12 of the General Conditions. The parties also recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by Owners if the Work is not completed on time. Accordingly, instead of requiring any such proof, Owners and Contractor agree that as liquidated damages for delay (but not as a penalty), Contractor shall pay Owners One Thousand Two Hundred Eighty-five Dollars (\$1,285.00) per day for each day that expires after the time specified in Paragraph 4.02 for Substantial Completion until the Work is substantially complete. After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining Work within the Contract Time or any proper extension thereof granted by Owners, Contractor shall pay Owners One Thousand Two Hundred Eighty-five Dollars (\$1,285.00) per day for each day that expires after the time specified in Paragraph 4.02 for completion and readiness for final payment until the Work is completed and ready for final payment.

4.04 Special Damages

A. In addition to the amount provided for in liquidated damages, Contractor shall reimburse Owners (1) for any fines or penalties imposed on Owners as a direct result of the Contractor's failure to attain Substantial Completion according to the Contract Times, and (2) for the actual costs reasonably incurred by Owners for engineering, construction observation, inspection, and administrative services needed after the time specified in Paragraph 4.02 for Substantial Completion (as duly adjusted pursuant to the Contract), until the Work is substantially complete.

B. After Contractor achieves Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining Work within the Contract Times, Contractor shall reimburse Owners for the actual costs reasonably incurred by Owners for engineering, construction observation, inspection, and administrative services needed after the time specified in Paragraph 4.02 for Work to be completed and ready for final payment (as duly adjusted pursuant to the Contract), until the Work is completed and ready for final payment.

4.05 Claims for Additional Time

A. Contractor shall be entitled to an extension of the contract time for delays or disruptions due to unusually severe weather in excess of that normally experienced at the job site only as determined from climatological data set forth in this subsection. Contractor shall bear the entire economic risk of all weather delays and disruptions and shall not be entitled to any increase in the Contract Price by reason of such delays or disruptions. Rainy days shall not be considered an abnormal or adverse weather condition for which an extension of time will be granted unless and except in those months during which the actual cumulative number of rainy days within the month exceed the historical average cumulative number of rainy days for said month, provided that the rainfall prevented the execution of major items of work on normal working days. A rain day is defined as a day when rainfall exceeds one-tenth (.1) inch during a twenty-four (24) hour period. The historical number of Weather Days per calendar month is as follows, based upon regional weather data from the National Weather Service or NOAA:

Average Weather Days per Month

Jan.	Feb.	Mar.	Apr.	May	Jun.	Jul.	Aug.	Sept.	Oct.	Nov.	Dec.
(4)	(4)	(4)	(3)	(5)	(6)	(4)	(3)	(4)	(4)	(4)	(4)

The number of rain days shown in the Rainfall Table for the first and last months of this Agreement will be prorated in determining the total number of rain days expected during the period of this Agreement.

B. Requests for an extension of time pursuant to this subsection shall be promptly submitted to Owners in accordance with Article 10 of Section 6. Failure to timely submit a complete notice of claim for delays and extension of time for completion due to abnormal or adverse weather conditions or rainy days pursuant to this subsection shall result in the denial of a request for extra time for performance under the Contract Documents.

ARTICLE 5 - CONTRACT PRICE

5.01 Owners shall pay Contractor for completion of the Work in accordance with the Contract Documents the amounts that follow, subject to adjustment under the Contract:
